

Individual continuation of collective health insurance Provision of information from employer to employee

You are losing the cover of our collective health insurance (along with the affiliated members of your family). Under the provisions of the Verwilghen Act you now have the possibility of taking out an **individual health insurance policy**.

You can do this WITHOUT any waiting periods and WITHOUT any medical formalities if you have been affiliated to a health insurance plan for at least 24 months without interruption. In this case, any previously existing disorders that are currently insured also remain covered.

If you would like to continue the insurance on an individual basis, then strict deadlines apply:

- You should submit your request for continuation within 30 days of receipt of this document. This term can be extended with 30 days if you write a letter or e-mail to the insurance company saying that you wish to use this option to extend.
- The insurer will then contact you and make you an offer within a period of 15 days.
- Finally, you in turn have 30 days to accept this proposal.

It is extremely important to abide by these deadlines. If they are not observed, then the right to individual continuation lapses. To request an offer for individual continuation, you can contact our Vanbreda Risk & Benefits manager on 03/217 56 83 or via mailbox healthcareservices@vanbreda.be.

Loss of affiliation

You and possibly members of your family are no longer affiliated to the collective health insurance as of ___/___/_____.

Data concerning the insured member of staff
